

Las Vegas FAAS Team presents:

Flight Risk Assessment Tools (FRAT), Avoiding Collisions With Unmanned Aircraft Systems (UAS)

Scott Brooksby, CFII, MEI, ATP, AMT, DDS, and FAA Safety Team representative will explore how risk assessment, before and during a flight, will significantly improve a pilot's chances of avoiding accidents and incidents. What tools are available to enable us to perform a risk assessment? There are several, but in the end it is the pilot's responsibility to make the decisions and be the Pilot in Command.

Ms Justine Harrison, an attorney specializing in corporate, non profit and aviation clients, will discuss General Aviation Operations in the vicinity of UAS Operations. Ms Harrison is a multi-engine pilot and business aircraft owner/operator. Nevada is one of the six FAA designated UAS test sites across the nation and has many military UAS operations. Come hear the latest updates regarding drones, unmanned aircraft, and ground controlled UAS, as well as regulations and policies for UAS pilots and operators. Student pilots through ATPs will benefit from this seminar as well as aircraft model builders and operators.

Directions: Grand Canyon Room in the North Las Vegas Air Terminal

Event Details

Thu, Aug 27, 2015 - 19:00 PDT
North Las Vegas Airport (KVGT)

2730 Airport Drive
Grand Canyon Room
